

Kennedy Mwangi

Quality Assurance Engineer | QA Leadership | Test Automation | API & Data Validation

Nairobi, Kenya | kenmwas7@gmail.com | +254 726 156 420 | linkedin.com/in/mwangi-k-847b24295 | github.com/Kmwas

PROFESSIONAL SUMMARY

Quality Assurance Engineer with 10+ years of experience delivering reliable web, mobile, API-led, and data-heavy software across humanitarian technology, e-commerce, telco, fintech, and enterprise environments. Strong record in QA leadership, Cypress automation, regression strategy, API and database validation, performance testing, CI feedback loops, and stakeholder-ready release communication.

SELECTED IMPACT

9	50%	35%	30%
Junior QAs mentored	Manual regression reduction	Test efficiency improvement	Production bug reduction

CORE SKILLS

Quality Engineering	Test strategy, risk-based testing, exploratory testing, regression, UAT, release validation, requirements analysis
Automation	Cypress, Selenium, Katalon Studio, Webdriver.io, reusable frameworks, CI and continuous testing pipelines
API & Data Quality	Postman, REST APIs, SQL, Postgres, MySQL, database validation, data integrity, business-rule validation
Leadership & Delivery	QA planning, KPIs, mentoring, Jira, TestRail, HP Quality Center, Bugzilla, Asana, GitHub, Bitbucket

EXPERIENCE

International Rescue Committee - Quality Assurance Analyst

2026 - Present | Nairobi

- Assure quality across data-driven products and workstreams involving dashboards, calculations, configurations, APIs, workflows, and releases.
- Use cross-layer validation to compare UI behaviour, API responses, backend data, and business rules where product risk is highest.

Nathan Digital - QA Lead

Dec 2023 - 2026 | Nairobi

- Managed QA across multiple high-profile projects while mentoring 9 junior QAs across test design, debugging, automation, and delivery discipline.
- Implemented standardized test documentation and automation practices, contributing to a 35% improvement in test efficiency.
- Expanded Cypress automation coverage, reducing manual regression testing by 50% and speeding release cycles.
- Supported CI and continuous testing pipelines, reducing developer feedback loops and average bug-fix time by 25%.

Copia Global - Senior QA Engineer

Jan 2022 - Oct 2023 | Tatu City

- Implemented Cypress automation, cutting testing time by 40% and improving release speed.
- Reduced production bugs by 30% through early-stage testing and close developer collaboration.
- Developed test plans for 50+ projects and supported performance testing that improved platform scalability.

Wasoko - Senior QA Engineer

Jul 2019 - Dec 2021 | Nairobi

- Led functional and regression testing across multiple platforms, increasing release accuracy through structured validation.
- Automated 100+ test scripts using Webdriver.io, reducing manual testing hours and improving execution consistency.
- Built a test case repository and worked with cross-functional teams to support predictable delivery.

Safaricom PLC - QA Engineer

Oct 2018 - Jul 2019 | Nairobi

- Supported QA for major projects including Safaricom Selfcare and Masoko.
- Automated repetitive test cases using Katalon and strengthened data integrity through database testing.
- Worked with users and delivery teams to understand product needs and improve release quality.

M-Kopa - QA Engineer

Mar 2015 - Oct 2018 | Nairobi

- Created regression suites, verified resolved defects, and supported multiple product releases.
- Reduced issue resolution time through close collaboration with support and development teams.
- Improved product quality by identifying defects early and communicating quality concerns clearly across teams.

EDUCATION

Bachelor of Science in Information Technology - Mount Kenya University, Second Class, Upper Division

PORTFOLIO THEMES

- Data quality: scenario-based coverage for reporting logic, calculations, configuration, and backend validation.
- Automation: maintainable Cypress, Katalon, Selenium, and Webdriver.io coverage around repeatable risk areas.
- Leadership: QA standards, KPIs, risk assessment, mentoring, release readiness, and stakeholder communication.
